Sample Price Calculation for Understanding

For example, a **family of 02 adults and 01 child** visiting Udawalawe National Park ticket price is as follows:

`(02 adults × USD 25) + (01 child × USD 15) = USD 65.00.`

Then add the park **service charge of USD 11.00** and **18% government tax.**

Total Entrance Fee = USD 65.00 + USD 11.00 + USD 13.49 = **USD 89.49/=**
